**MOVING  
YOUR  
WORLD**

# About Us

Our customers benefit from a keen combination of logistics and forwarding services, including a clear, fast, and flexible execution achieved by simplifying the process chain.

We support our customers in every step of the supply chain, from consulting, concept developing, cost comparison method, project planning to the realization of all mutual set goals. Many of such complex logistics concepts have already been implemented in the past. These include the management of a consignment warehouse, final ware processing, complete dispatch area processing with a direct link to production and high-bay storage. All goods are commissioned for dispatch and are delivered dead on time. We take over many tasks that are normally the core competence of our client.

All logistics projects are linked to the customer-specific electronic data processing system to ensure permanent and transparent flow of information.

This kind of execution improves all business processes, increases productivity and quality, facilitates administration, and reduces costs. All in all, our customer's competitive ability is significantly raised.

We specialized in packing & moving services, relocation services, warehousing services, car transportation services, goods insurance, import & export, road-air-ocean shipments and corporate office shifting services. We take utmost care to pack and transport your belongings, and later unpack at your desired destinations in all over the world. Our list of satisfied customers is growing day by day and many of our customers have committed themselves to using us for any future moves they may make.

# Our Mission

Our mission is to provide the best customer service and connect the people with their world, everywhere they live and work, and try do it better than anyone else...

## Quick & Powerful Solution

Transportation is among the more vital economic activities for a business. By moving goods from locations where they are sourced to locations where they are demanded, transportation provides the essential service of linking a company to its suppliers and customers.

## MOVING & RELOCATION

Moving your family and goods to a new location can be stressful and tiresome. However, choosing the right moving company can help make the process less stressful. There are many moving companies available in the market. Therefore, it takes a consumer who has the necessary knowledge of differentiating companies; a consumer who has an eye for quality. So HM KING MOVERS offering to our client's Good customer service, reliable customer reference, offering a free pre-move survey to estimate the costs, pool of vehicles, equipment, well experienced and skilled workers and storage facility of goods.

---

## Customs Clearance

Customs clearance work involves preparation and submission of documentations required to facilitate export or imports shipments, representing client during customs examination, assessment, payment of duty and co taking delivery of cargo from customs after clearance along with documents. We are fully understanding the different needs of our clients and always strive to maintain the highest level of service.

---

# Office & Industrial Moving

Be it a local, inter-state or an international office shift HM KING MOVERS has the resource, the expertise and the skill to offer seamless office relocation without disruption of day-to-day work. Our office relocation specialists are trained and qualified to relocate with minimum hassles your office equipment's, computers, high-end servers, plotters, files, records, furniture, electronic systems and libraries in an organized manner. Whether we are moving a small office or a large corporation, we understand that the show must go on. Office relocations require thorough planning and a system to be put in place to minimize downtime and avoid transitional issues.

---

## Warehousing

There are many things to consider when deciding to store your valuable goods in a warehouse. We can meet your quantity requirements quickly and store the surplus securely - ready to be retrieved and delivered where you need it, when you need it. Before choosing a warehouse space however, there are a few key factors you should consider. So HM KING MOVERS have dedicated Storage areas to meet the following requirements:

- Competitive storage rates.
  - Receipt of storage
  - Dispatch of palletized and non-palletized goods
  - Account administration
  - Temperature controlled storage facility
  - 24/7 CCTV site security
-

## Transport Logistics

---

Our logistics products – the network of all transport carriers – and our electronically controlled services guarantee a smooth execution. Your goods will reach their destination without incident and you will be able to follow them every step of the way.

## Outbound Logistics

Outbound logistics is the last part of the supply chain ensuring the delivery of the finished ware to the various markets. For a joint success, meeting the agreed conditions like lead time, reliability, and quality, is essential. Therefore, the logistics costs should be transparent and calculable at all times without sacrificing quality.

---

## Air Freight

Service options for air freight:

- Import and Export service
  - Customs Declarations and Settlement of all Clearance Formalities
  - Door to Door / Door to Airport / Airport to Airport / Airport to Door (from and to Every Location Worldwide)
  - Express- or Economy Conditions
-

# Sea Freight

Cargo transportation by sea is today's most economical way of hauling intercontinental wares all over the globe. HM KING MOVERS offers its customers a complete sea freight procedure through an international network and with local contact services. We transport your wares from every place on earth to the consumer, including settlement of all clearance formalities and, if necessary, unloading of the containers at the site for stuffing or de stuffing.

---

# Overland Freight

Transportation is among the more vital economic activities for a business. By moving goods from locations where they are sourced to locations where they are demanded, transportation provides the essential service of linking a company to its suppliers and customers. It is an essential activity in the logistics function, supporting the economic utilities of place and time.

We have a full range of truckers—small, medium, and large—to provide the flexibility to transport shipments of all sizes to and from ports all over the world.
